Highway	Pipe/Paver Line	Stream/Shoal Line
Secondary Road	Ridge/Physical Feature	Intermittent Stream
Deep Trench/Warehouse/Terrace	Property/Fence Line	River/Lake
Railroad	Nonvisible Boundary	Glacier

Mosaic  Inset  Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest ranking of these boundaries.  
 1 A "\*" following a place name indicates that the place is coextensive with a MCD. A "-" indicates that the place is also a false MCD; the false MCD name is not shown.  
 2 This map shows tribal census tract boundaries and numbers within the subject entity; nontribal census tract boundaries and numbers outside of the subject entity but within the numbers. A tribal census tract is a type of census tract defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on an American Indian hierarchy rather than by state and county. Where reservations or off-reservation trust lands cross state or county boundaries, the administrative tribal census tract number may be assigned on both sides of the boundary, and, if so, constitutes a single tribal census tract entity.  
 3 A "\*" following a block number indicates that the block number is repeated elsewhere in the block.
