### FEATURES

Highway; Secondary Road; Jeep Trail/Walkway/Ferry; Railroad; Pipe/Power Line; Ridge/Physical Feature; Property/Fence Line; Nonvisible Boundary; Stream/Shoreline; Intermittent Stream; River / Lake; Glacier; Mobility; Inset; Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

1 A "*" following a place name indicates that the place is coextensive with a MCD. A "*" indicates that the place is also a false MCD; the false MCD name is not shown.

2 This map shows tribal census tract boundaries and numbers within the subject entity; nontribal census tract boundaries are shown outside of the subject entity but without numbers. A tribal census tract is a type of census tract defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on an American Indian hierarchy rather than by state and county. Where reservations or off-reservation trust lands cross state or county boundaries, the same tribal census tract number may be assigned on both sides of the boundary, and, if so, constitutes a single tribal census tract entity.

3 A "*" following a block number indicates that the block number is repeated elsewhere in the block.
